Komodo Edit Free Download For Mac there. It's your time to be digital. You can download Excel on a Mac. Making DVD movies is no longer exclusively for video technicians and enthusiasts. ArcSoft ShowBiz DVD 2 is made for people like you every day who want to get into the coolest technologies without having to spend hours and hours learning how to use complicated software. In no time you will be capturing video and designing your own DVDs! The program allows you to assemble photos and videos on the Storyboard, then combines everything and puts your final movie on DVD. Plug it in and go Have a cool new digital video camcorder? Plug him in and go. Do you have a camera on the web? Plug him in and go. Do you have a video capture card? Plug in your video source and go. It's that simple. ArcSoft ShowBiz DVD 2 makes it easy to capture video from virtually any device. Like a pro. That's right, you're in charge when it comes to making your movie. And we're talking about all the cool stuff, not just video clips. We're talking transitions, special effects and animated text. You can keep things I'm sure you do. But you can also add fun frames around various parts of your movie, intro and ending credits, continuous reviews or music (or both!), and ton of other cool special effects. Oh, that's cool! Okay, so you've probably added text to your videos before. What is the Business? Wait until you check out our new Fancy text sets, along with our huge collection of text effects. View everything within the video player to ensure you get exactly what you want. How did you do that? That's what everyone will say when they see how their movie scenes change to each other. A variety of cleansing, fading and dissolved effects are included to make your film flow. Get rid of rough cuts and pauses, having a segment slowly melt as the next scene disappears. Or our Our creative content group has included a lot of cool menu designs and backgrounds suitable for all types of movies and occasions. Choose any one you like. Of course, you are free to use your own photos as the background of the menu. Give your movie a title and label each chapter of your movie. You can even set chapter thumbnails to show any frame of the corresponding video clip and title to each chapter as you like. Oops, did you make a mistake? You're not doomed if you made a mistake and you've burned your DVD. With compatible media, you can go back to editing your DVD discs without worrying. We understand that DVD discs can be expensive, so we make sure none of your jobs go to waste. The incredibly simple quick DVD option does everything for you. Just adjust some settings and go away. The ArcSoft ShowBiz 2 DVD will automatically capture the video from your video device, compile your movie, and create your DVD disc. Seriously, there's nothing else. Anyone can make their own DVD movies that include you! Sytem requirements: - Pentium III 800 MHz or higher (PIV 1.6 GHz or higher recommended) - Windows 98SE/ME/2000/XP (Windows 2000/XP recommended) - 400 MB free hard space for program installation - 4 GB+ hard disk free space for capture video and editing - 128 MB RAM (512 MB DDR RAM recommended) - 16-bit color display in 1024 x 768 - DirectX 9 - Windows Media Player 9.0 recommended - 7200 RPM recommended hard drive Note: 1 hour of DV video requires 13 GB of hard disk space.
